PROFILE

Skilled frontend developer with 3 years of experience in developing and knowledge JavaScript, Vue.js, Vuex, Nuxt.js HTML, CSS, SCSS. At my previous job, I worked as a frontend developer in a product company, which creates website and applications. I created responsive websites and applications using SPA, SSR. In addition, I read the PHP code and made small changes to get the necessary data via the API or on the client side. I participated a lot in developing mobile applications based on "webview" technology.

Status in Canada: study permit after graduation post-graduate work permit. **Eligible to work full-time**
